Fifteen at the Post Office in Coalville, Park City, Utah.

1884, as Second Class Matter.

COALVILLE, FRIDAY, OCT. 28, 1884.

The Times has sold the space of one column each to the Democratic and Republican parties of Summit County for the discussion of their political principles during the campaign. The column will be edited by men of the respective parties. The Times management being in no way connected with them. The space is sold, the owner of any other advertising space, and the utterances found in those columns have nothing to do with the policy of the paper. The Times is non-partisan, and will continue to be strictly non-partisan.

THE TELEPHONE.

While Mr. George Moore of Wanship was in Coalville last Tuesday, a representative of The Times asked him a few questions with regard to the telephone line. It will be remembered that Mr. Moore was one of the first men to originate the building of the telephone line, and also the most active worker. He informed the writer that the citizens of Wanship were both ready and willing to do their share, as were other towns up the river. He said, however, that he thought it advisable to wait until spring next, before putting up the poles, as it was necessary to plant them, and this task would be much easier in the spring. If done now the bark would have to be hewed off. He informs us that the amount of poles and labor required by such settlement will be about 100, set four feet in the ground, twenty-five feet high.

Had Coalville taken as active an interest in this work as has the smaller towns, a fine school house in operation before this. The expense in Coalville would have been insignificant compared to the other towns along the line, while the benefits would be double; and yet, we are ashamed to say, Coalville exhibited the least interest and enterprise of the whole lot. It is to be hoped a different spirit will be shown when spring opens, and that the line will be put up without delay.

A SIGHT SCHOOL.

Too much credit cannot be given the teachers of Coalville for the interest they are taking and the good work they are accomplishing in the line of education. Their latest move in this direction is one looking to the organization of a night school for the benefit of those who are employed during the day, and who are unable to attend school now. The school will commence on the 29th of this month, and the teachers ask the following proposition:

Two nights per week, for twenty weeks, will constitute a term, for which a fee of \$2.00 in advance will be required. One of the members of the class will be appointed as treasurer, who, at the end of the term, will refund to each pupil the amount of his original fee, \$2.00, less 25 cents for each night's absence, sickness of the pupil being the only acceptable excuse for absence. After ten nights' absence, no deposit of \$2.00 will be required for retained membership.

It will be understood from this arrangement that the efforts and services of the teachers will be gratuitously given. The object is requiring a parent and the furnishing of 25 cents for each night's absence to make it an object for a pupil, once a member of the school, to attend regularly, and not for the purpose of making anything out of it. Thus it will be seen that a pupil may get the benefit of teaching for forty nights at no expense whatever. Regular attendance is the only requirement.

It is certainly a most generous work on the part of the teachers, and our young men and girls, and in fact all who have heretofore been deprived of the opportunity of gainful education, should take advantage of such a grand offer and make the best of it.

Now's Time!

We offer our kindred, Indians, Negroes for any race of colored skin, the world over, the highest wages, \$1.00, \$1.25, \$1.50, \$1.75, \$2.00, \$2.25, \$2.50, \$2.75, \$3.00, \$3.25, \$3.50, \$3.75,
